

LAMPIRAN 5

BRITISH EMBASSY  
JAKARTA

30 December 1987

His Excellency  
Prof Drs Ginandjar Kartasasmita,  
Junior Minister for Home Products  
Production  
Jl Veteran No.17  
JAKARTA PUSAT

*Dear Minister,*

EXPORT OIL REFINERY

You may remember that I called to see you on 29 July accompanied by Mr Alan McKerracher of Foster Wheeler Energy Ltd and Mr Ling Thim Poh, BP's Regional Director from Singapore. You told us that a special committee had been set up to start talks with Foster Wheeler about the consideration of a new export oil refinery in Indonesia.

Since then Foster Wheeler and BP have done considerable work on preparing this project, culminating in a formal proposal to Pertamina. I had hoped to deliver a copy of this to you in person, but I understand from your office that you are very tied up at present. I know what a busy time it is at the end of the year. However, I have pleasure in sending you a copy of the proposal with this letter.

In the meantime Foster Wheeler Energy Ltd have applied to the British Government for assistance under the Aid and Trade Provision in support of their bid. The Government is currently processing this application and I hope to be in a position to let you know of its decision in the reasonably near future.

*Yours sincerely,  
Alan Donald*

A E Donald  
H M Ambassador
